## PROFESSIONAL SUMMARY

Results-driven **Full Stack Developer** and **MERN Stack Developer** with a strong foundation in Information Technology and hands-on experience building responsive and scalable web applications using **MongoDB, Express.js, React.js, and Node.js**. Strong knowledge of **Data Structures and Algorithms in Java**, RESTful API development, database management, and real-time communication using **WebRTC**. Experienced in developing user-focused applications, implementing backend services, and working with modern web development tools. Passionate about solving complex software engineering problems and building efficient, maintainable solutions.

## TECHNICAL SKILLS

|                       |                                                                                  |
|-----------------------|----------------------------------------------------------------------------------|
| <b>Languages:</b>     | Java, JavaScript (ES6+), HTML5, CSS3, SQL                                        |
| <b>Frontend:</b>      | React.js, Redux, EJS, Bootstrap, Tailwind CSS, Responsive UI/UX                  |
| <b>Backend:</b>       | Node.js, Express.js, RESTful APIs, WebRTC                                        |
| <b>Databases:</b>     | MongoDB, Mongoose ODM, MySQL                                                     |
| <b>Core Concepts:</b> | Data Structures & Algorithms, Object-Oriented Programming, DBMS, API Development |
| <b>Tools:</b>         | Git, GitHub, VS Code, Postman, npm                                               |

## PROJECTS

### MeetVerse – Real-Time Video Communication Platform Full Stack Developer

*React.js, Node.js, Express.js, MongoDB, WebRTC*

- Developed a real-time video communication platform that enables users to create and join virtual meeting rooms.
- Implemented real-time audio and video communication using **WebRTC** with a Node.js and Express.js backend.
- Built meeting workflows for room creation, room joining, and participant management.
- Implemented responsive media controls for video and audio interaction to provide a user-friendly meeting experience.

### Personal Portfolio Website Frontend Developer

*React.js, JavaScript, HTML5, CSS3*

- Developed a responsive personal portfolio website to showcase technical skills, projects, achievements, and professional profile.
- Designed a modern, interactive, and user-friendly interface with responsive layouts for desktop and mobile devices.
- Integrated GitHub, LinkedIn, LeetCode, and GeeksforGeeks profiles to provide direct access to professional work and achievements.

## EDUCATION

| Degree / Qualification                                    | Institution / Board                 | Score         |
|-----------------------------------------------------------|-------------------------------------|---------------|
| Bachelor of Technology (B.Tech) in Information Technology | R.R. Institute of Modern Technology | 83.7%         |
|                                                           |                                     | CGPA: 8.46/10 |
| Senior Secondary (Class XII)                              | Class XII                           | 65.6%         |
| Secondary (Class X)                                       | Class X                             | 71.66%        |

## ACHIEVEMENTS & COMPETITIVE PROGRAMMING

- Solved **300+** coding problems on **LeetCode**, strengthening problem-solving skills and algorithmic thinking.
- Practiced Data Structures and Algorithms including arrays, strings, recursion, sorting, searching, trees, and dynamic programming.

## ADDITIONAL INFORMATION

- Strong understanding of Object-Oriented Programming, DBMS, SQL, and fundamental software development concepts.
- Comfortable working with Git/GitHub, API testing using Postman, and modern JavaScript development workflows.
- Languages: Hindi and English.
